

**40\*60CM Heat Press Machine****\$350-430****40\*60cm Heat Press Machine - Professional Heat Transfer Solution**

The 40\*60cm Heat Press Machine is a high-performance, large-format heat transfer machine designed for professional printing businesses, custom apparel shops, and DIY enthusiasts. With an extra-large 40x60cm (16x24 inches) heating plate, this machine efficiently handles bulk transfers on T-shirts, jerseys, tote bags, caps, ceramics, and more, ensuring vibrant, long-lasting prints.

**Key Features:**

- ✓ Even Heating & Precise Control - Equipped with a high-quality aluminum heating plate and digital temperature control (0-300°C) for consistent heat distribution.
- ✓ Adjustable Pressure & Time - Customize pressure (0-1.2cm gap) and timer (0-999s) for different fabrics and materials.
- ✓ Dual Operation Modes - Choose between automatic (press-to-seal) or manual mode for flexible workflow.
- ✓ Durable & Safe - Sturdy steel frame, heat-resistant handle, and overheat protection ensure safety and longevity.
- ✓ Versatile Applications - Compatible with sublimation paper, vinyl, HTV, and other heat-transfer materials.

Ideal for high-volume production, this heat press delivers professional-grade results with speed and precision. Upgrade your printing setup with the **40\*60cm Heat Press Machine** - where efficiency meets quality!

**Technical Parameters:**

Hot stamping area: 40-60cm

Voltage: 110v/220v

Work rate: 2500W

Temperature range: 0-249°C

Time range: 0-999sec

Weight: 22kg

**Operating procedures:**

1. Plug in the power supply by hand, turn on the power switch, and the power indicator light indicates;
2. Adjust the thermostat to the desired temperature, and when the temperature reaches a certain temperature, the indicator light on the upper part of the thermostat goes out, and you can start working;
4. Set the timer to the required time;
5. Lay the clothes flat on the lower ironing board, fold the heat transfer paper (please pay attention to the front and back of the heat transfer paper), and press the handle down firmly to the end;
6. When the set time for indicating hot stamping is up, the alarm prompts (buzzer sounds), and the handle is returned to its original position.
