

High Speed Selfie Coffee Printer**\$1100-1300****F410P Coffee Printer - High-Speed, High-Precision Custom Coffee Printing**

The F410P Coffee Printer is a cutting-edge machine designed for high-traffic coffee shops, restaurants, hotels, and bars. Offering fast printing speeds, exceptional precision, and low cartridge consumption, it's ideal for printing complex images and logos directly onto drinks like lattes, cappuccinos, cocktails, and even cakes.

This printer uses FDA-certified food-safe ink that is both odorless and safe for consumption, ensuring your designs are not only visually stunning but also perfectly safe. With a print accuracy of 600 dpi and a printing speed of 5 to 15 seconds, you can quickly create personalized and shareable drinks that will captivate your customers. Perfect for businesses looking to increase brand visibility and engage customers in a fun, creative way!

Key Features:

- **Fast Printing Speed:** Prints designs in just 5 to 15 seconds, suitable for high-traffic environments.
- **High-Precision Printing:** Achieve sharp, detailed images with 600 dpi resolution.
- **Low Cartridge Usage:** Each ink cartridge prints up to 1000 uses, offering cost-efficiency.
- **FDA-Certified Ink:** Made with food-safe coloring and water-based ingredients, odorless and safe for consumption.
- **No App Required:** Customers can easily upload designs by scanning the unique QR code on the printer or by taking a selfie.
- **Promote Your Brand:** Print your logo or custom designs on coffee and drinks, increasing brand awareness and making your drinks go viral on social media.
