

3D Hologram Fan 150/180CM Size LED Advertising Display Machine

\$2500-3500

3D Hologram Fan LED Display - Captivating Visual Advertising Solution

The 3D Hologram Fan LED Display is a cutting-edge advertising tool designed to project stunning floating visuals that capture immediate attention. Unlike traditional signage or billboards, this innovative display creates high-resolution 3D holographic effects, making it ideal for showcasing logos, products, promotional content, or special messages in a visually immersive way.

Widely used in airports, hotels, exhibitions, shopping malls, bars, weddings, and events, it helps businesses attract foot traffic, build brand awareness, and deliver eye-catching presentations that stand out in crowded environments.

We offer a variety of popular models ranging from **43 cm to 180 cm** in diameter. Custom sizes and features can be tailored to your specific needs, including personalized packaging and content display services.

With years of experience in this field, our 3D hologram fans have been exported to numerous countries across **Southeast Asia, Europe, North America, Africa, and the Middle East**. Whether you're a retailer, brand, or event organizer, we welcome inquiries from clients around the globe.

Feel free to contact us for more information or customization options. Let your brand shine in 3D.
